20 May 2016,

Webjet today announced an update on the strong performance of each of its businesses with continued bookings growth and market share gains in both digital retail (B2C) and digital wholesale (B2B) divisions.

Webjet's Managing Director John Guscic, said:

"We are seeing strong growth continue as expected across all of our businesses. TTV growth has continued at around 28% which is consistent with the growth achieved in 1H16.

We are benefiting from the investments we have made in B2B with the TTV growth of Sunhotels ahead of our expectations which is particularly pleasing leading into the European summer holiday period.

There has been various commentary on the trading conditions in the travel industry, however, we continue to achieve market share gains underpinning the strength of the Webjet business with performance consistent with our expectations."

The Company will report its full year 2016 results on 18 August 2016.

John Guscic
Managing Director
